

Welcome to Icelandair Hotel Klaustur Restaurant. Widely considered the best trout available, we're proud to have the renowned Klaustur Artic Char is on our menu. It is raised in the water that comes directly from under the Skaftáreldahraun lava field. Furthermore, we proudly offer a local Lamb from Seglbúðir farm and their small-scale slaughterhouse. Their sheep graze freely in the mountains of Laki throughout the summer.
